Orange Pop Rulers (Optional, I'll demonstrate in class)

12 1/2" ruler to square up blocks if you are not using the Orange Pop Rulers

Pressing cloth to protect vinyl from iron

Seam ripper

Marking pen that can be removed from fabric

What to do before you come to the first class:

1. There is a cutting dimension error in the book. Look for the pink/green plaid on white (MAS8244-PG) on page 4. Section 5 should be cut 10 1/2" x 4 1/2".
2. When cutting kit fabrics using the charts on pages 2-5, always cut largest pieces first to make sure there is enough for all fabric cuts. If you cut all the fabrics ahead of time, you may want to label them and put into zip lock bags. It's not necessary to pre-cut everything but be aware of the dimensions that need to be cut from each piece.
